Communaty™
Digitally Livable

360° digital access control platform
for residential compounds

With Communaty™, your compound residents and their visitors will never have to queue up at your gates again. Instead, they will quick, yet secure entrance process that they will appreciate.

Tenants Network

Your tenants can give access to give configurable access to their network members. Tenant's can add various members to his network such as Family members, renting tenants and guests. With personalized permissions given to each of them.

This is also very useful for parents, who will be able to know who visited their children in their absence.

Secure by Design

Communaty gives your full control and monitoring to all gate pass requested and used at any point of time.

Your security team will be able to immediate report who is inside your compound at any time, as well as number of visiting vehicles and whom they are visiting.

System is also intelligent enough to automatically report to you if a visitor is staying more than usual time inside your compound.

Smart Services

Built-in services that will be loved by your tenants, such as:

- Navigation assistance to delegated visitor gates and then to visiting property.
- Special access requests for food delivery, workers, and movers.
- Automatic SMS notifications for visitors once their access is generated.
- And more...

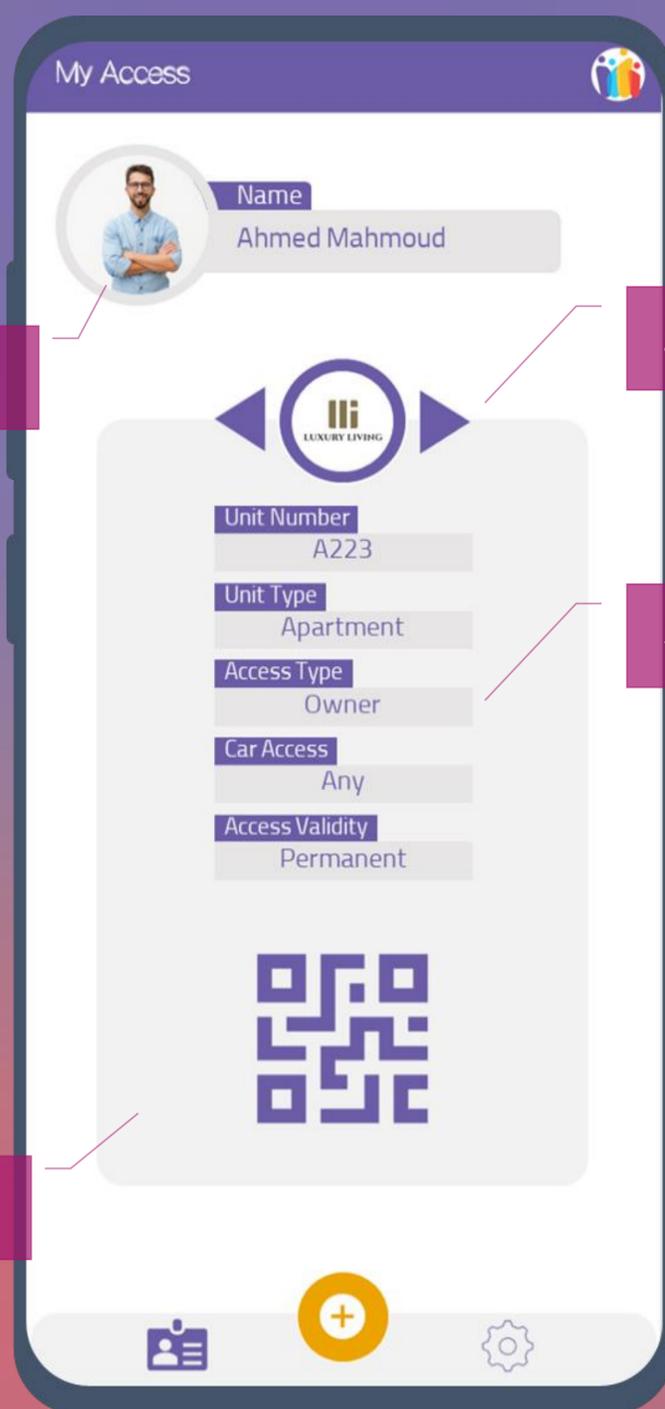

Communaty™

for residential compounds

Communaty™ Digital Access Card Wallet

Single Digital Wallet that gives your tenants access to all their properties.

Built-in Photo ID for every tenant

Multiple access cards in one wallet

Property information with multi-access types

Securely Generated QR codes for verification

A Quick scan at the security gate using the Communaty™ Guard's app is all what's needed to identify the person at the gate.

The Digital Access Card provides information about the property, as well as the validity and the type of access.

Access can be granted for different types, such as:

- Property Owners
- Family Members
- Renting Tenants &
- Visiting Guests

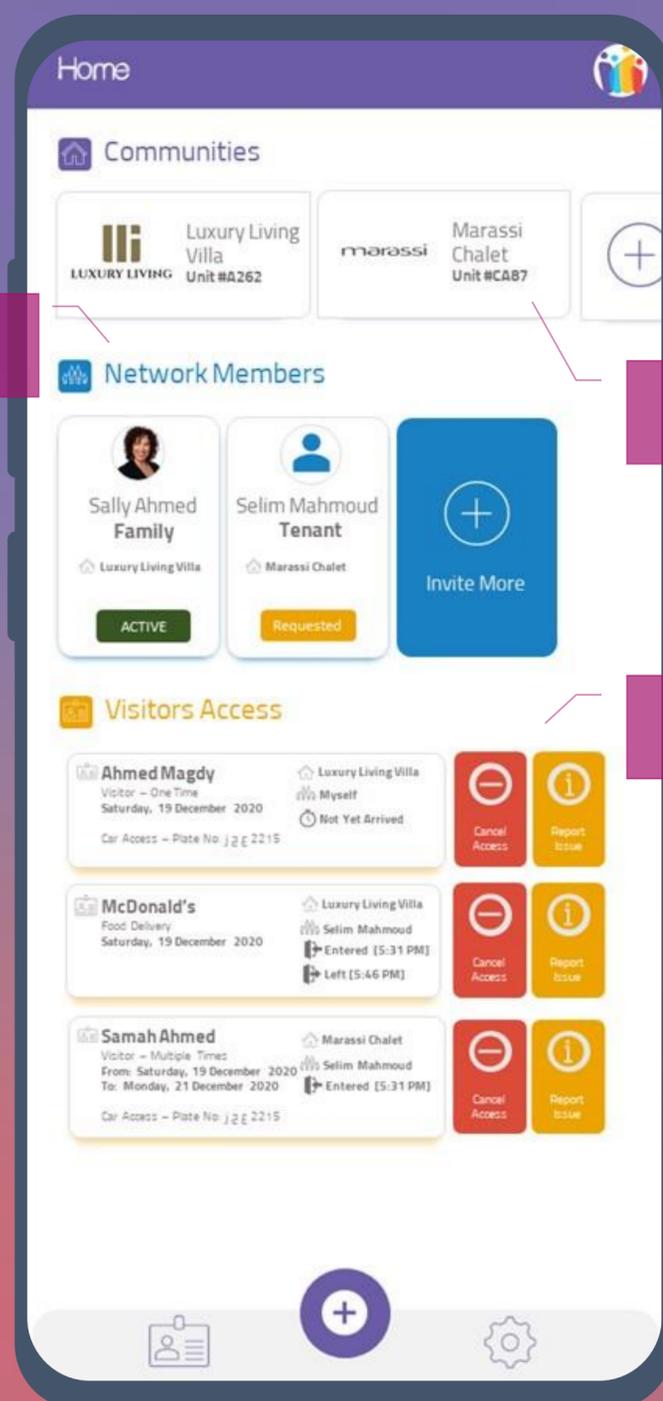

Community™

for residential compounds

Community™ Tenant Dashboard

Your tenants will love to use this app, they have access to all their properties in a single screen.

Network Members can have different access

Multiple properties access in one app

Quick and easy visitor access management

A single Tenant Dashboard will help property owners to easily do various tasks that often complicated without Community™

- Grant Access to my family members
- Find out who is visiting my son while I wasn't there
- Quickly allowing food delivery guy to pass through gate security
- Grant access to the family who's renting the house over weekend
- Report any suspicious access in the property
- And many other use cases.

for residential compounds

Communaty™ Guest Invite

Tenants can easily invite their friends and families over with easy guest access.

Quick & easy creation of temporary access

Favorite guests list to easily give them access

Quick Sharing option over any messaging app

With a double of taps, your tenant will be able to invite friends over. Quickly share their access over any messaging app, such as WhatsApp.

Of course, you can review and approve access requests at anytime. But most importantly, you will have a proper forecast of how many guests expected to arrive daily.

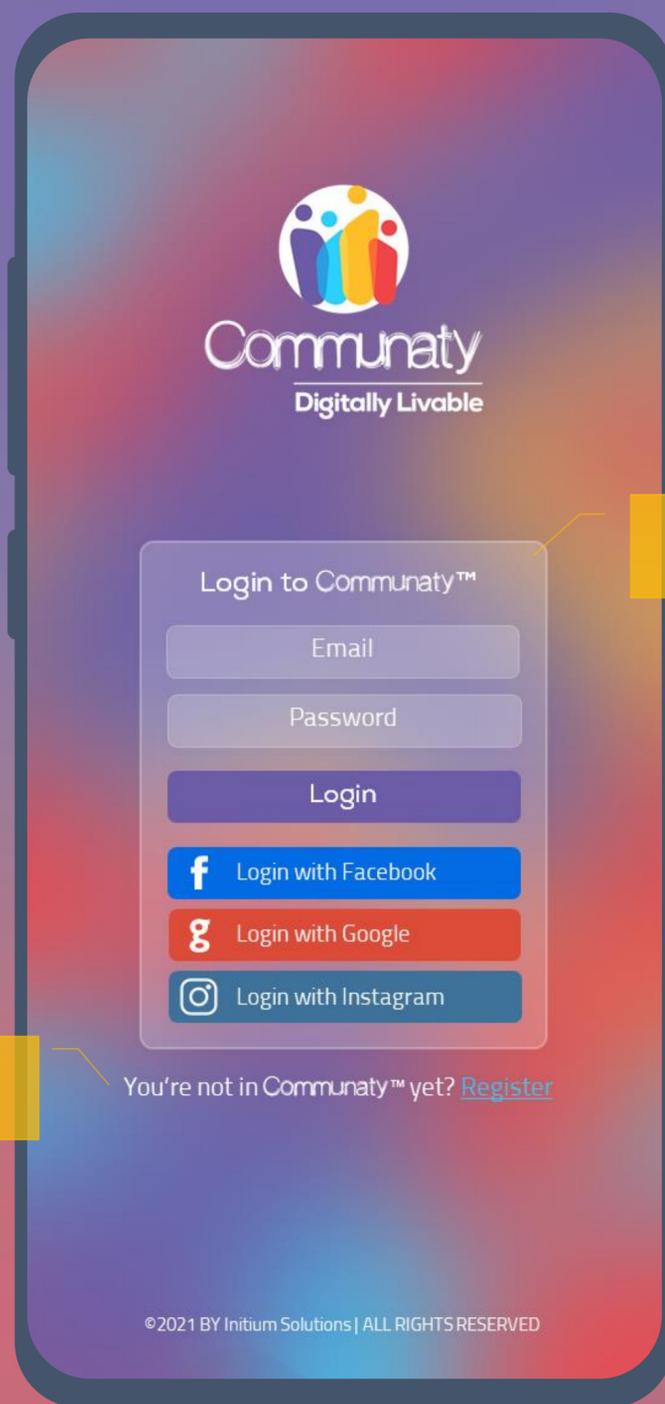

Communaty™
Digitally Livable

360° digital access control platform
for residential compounds

Communaty™ Tenant On-Boarding

Modern App with simple social sign-up and login process

New tenants can simply register their access

You're not in Communaty™ yet? [Register](#)

Modern sign-in options using social networks

New tenants onboarding can't get any easier.

They can simply register a new account using the app and your security team will automatically be notified to verify the information before activating the access.

Your tenants will never lose their access because they can sign-up using the social network they prefer.

In Initium Solutions, we have been providing Software as a Service(SaaS) products to thousands of users worldwide for a decade to help their business. Security is a key component in our offerings, and is reflected in our people, process, and products.

BlueLink also has always honored its users' rights to data privacy and protection. Over the years, we've demonstrated our commitment to this by consistently exceeding industry standards. We have no need to collect and process users' personal information beyond what is required for the functioning of our products, and this will never change. We have a privacy-conscious culture here and GDPR is an opportunity for us to strengthen this even further.
